DAY in response to the  
**COVID-19 crisis.**

# TELECOMMUNICATION

Virtual appointments & education with your Physical Therapist

Telecommunication is a teleconferencing video chat service where you can access one of our Physical Therapists in an online based appointment.

The benefits of this service at this critical time are:

- Decreased risk of COVID-19 exposure
- Keep urgent care and hospital departments clear
- Maintain a current plan of care you have established with your PT

Please call (860) 413-2073 to schedule an appointment or see if the telecommunication service is right for your specific needs. All our locations remain open at this time if you prefer to see us in person.

## WE'RE STILL HERE FOR YOU.
